SAN FRANCISCO BAY REGION

ORDER NO. 77-58

NPDES PERMIT NO. CA0037478

ORDER AMENDING ORDER NO. 74-186
TO ADOPT AMENDED WASTE
DISCHARGE REQUIREMENTS FOR:

GRANADA SANITARY DISTRICT
SAN MATEO COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region, (hereinafter called the Board) finds that:

1. The Board, on December 17, 1974, adopted Order No. 74-186 (NPDES No. CA0037478) prescribing waste discharge requirements for Granada Sanitary District, hereinafter called the discharger.
2. The Board, on July 15, 1975, adopted Order No. 75-40 amending Order No. 74-186 and prescribing a revised time schedule for the discharger.
3. The Board, on May 4, 1976, adopted Cease and Desist Order No. 76-53 prescribing, in part, a revised time schedule for the discharger's compliance with secondary treatment standards.
4. The discharger is a participant in the San Mateo County Mid-Coastside Wastewater Management Plan (SAM), a subregional system planning to discharge secondary treated wastewater to the Pacific Ocean near the Half Moon Bay area. The discharger will abandon its existing treatment plant and ocean discharge at Pillar Point after SAM is operational in November, 1979.
5. Section 301(b) of the Federal Water Pollution Control Act Amendments of 1972 requires all publicly-owned treatment works to achieve effluent limitations based upon secondary treatment no later than July 1, 1977. Secondary treatment has been defined by the EPA Administrator in 40 CFR 133, dated July 26, 1976.
6. The discharger has been unable to meet the July 1, 1977 deadline but expects to do so in compliance with the time schedule contained in Cease and Desist Order No. 76-53.
7. The environmental Protection Agency has modified the definition of secondary treatment to exclude limitations on effluent fecal coliform bacteria.

8. This project involves the continued operation of a public sewage treatment facility to provide sewerage service with negligible increase in the amount of use beyond that previously existing. Completion of this project will not have a significant effect on the environment under the exemption provided in Section 15101, Title 14, California Administrative Code.
9. The Board has notified the discharger and interested agencies and persons of its intent to amend existing requirements.
10. The Board, in a public meeting, heard and considered all comments pertaining to this discharge.

IT IS HEREBY ORDERED THAT Order No. 74-186 is amended as follows:
